LETTER FROM

Terrell & Tiffany Manger

We are very excited about this opportunity to partner with you in restoring the strength of community. There are many structures that make up what we know as the family unit. Regardless of the family composition, each family plays a part in building stronger communities for future generations. Though every family functions differently, we are all affected by influences inside and outside of the home. TNT World along with Marriage Works have initiated a project to start the conversations around identifying the influences that make or break or families.

Many of the things that work against the family unit and community that we so eagerly want to build, come from the social climates shaped by our educational facilities, entertainment industries, community standards and religious institutions. We have partnered with MSCS to present an original stage play that highlights some social persuasions that if address could help our communities and families change for the better. This production is a Broadway level "Hip Hopera" entitled INFLUENCE. This powerful think piece is written by Terrell Manger and Musical Director, Latrell Freeman. It offers a perspective that is very entertaining, easy to follow and impactful!

Please join in partnering with us to share this meaningful production with families, support systems and everyone that works closely with the youth of our city. This is an important project for this day and time. We have spent a great deal of time explaining what should not be done. This is a great opportunity to give examples and encouragement on what should be done to help bring positive change to our communities.

I want to thank you in advance for what we will do together!
